* Since the Schools Tennis Strategy was launched in April 2009.

Schools Tennis – Recent Feedback:

View a selection of comments below, received from attendees at recent Teacher Training courses / events:

“The instructor was excellent. He explained clearly, stated the objectives and showed everyone in a clear and concise manner the best methods to develop tennis within schools.”

“As a FS / KS1 teacher and non tennis player, I have found this course very helpful. It has given me key skills to teach the children in a fun way. It has also enabled me to learn correct techniques to teach very young children so that they don't have to re- learn techniques later on. I am looking forward to using your resources next term when we do net / wall activities. A very worthwhile and informative course. Thank you.”

“Our involvement came about as a result of Judy Murray visiting the school in June to open our sports pitch. She, and coaches, spent the morning with our children and they had a great time and want to play tennis now! Thank you.”

“The course was excellent and the teaching pack easy to use. Tennis equipment is prohibitively expensive so to be given a set has resulted in all children having a racquet and has enabled tennis to be taught thoroughly.”

“Children love the fact it has it's own special bag. The nets and the tape make it easy to deliver indoors & out. Also the rackets are a good size/ weight for children. Several teachers in the school enjoy the tennis equipment too and enjoy teaching tennis more because of it.”
