

TENNIS

ANY ABILITY

COME & COMPETE

Tennis is the perfect game for anyone with a learning disability.

It can be adapted to suit any level of ability. We make the court smaller, use bigger rackets or special balls designed to slow the game down and make it easier to play.

For those that want to compete there are regional, national and international tournaments including Special Olympics and INAS World Championships.

A great way to get started in the game is to come along to one of our one-day tennis camps for beginners. You can expect a day full of fun and friendship playing a range of games which will improve your tennis skills.

HAVE A GO CAMPS
